Preface.....	xi
Acknowledgments.....	xiii
Editor	xv
Contributors	xvii

PART I The Human Foot

Chapter 1	Foot Structure and Anatomy	3
	<i>Ma Xiao, Yan Luximon, and Ameersing Luximon</i>	
Chapter 2	Foot Morphology.....	19
	<i>Inga Krauss and Marlene Mauch</i>	
Chapter 3	Foot Characteristics and Related Models.....	47
	<i>Shuping Xiong, Asanka S. Rodrigo, and Ravindra S. Goonetilleke</i>	
Chapter 4	Foot Posture Index and Its Implications for Footwear Selection	79
	<i>Anthony C. Redmond</i>	

PART II Scanning and Processing

Chapter 5	3D Shape Capture of Human Feet and Shoe Lasts	113
	<i>Carl G. Saunders and Jeffrey Chang</i>	
Chapter 6	3D Surface Scanning.....	127
	<i>Sudhakar Rajulu and Brian D. Corner</i>	
Chapter 7	Three-Dimensional Point Data Processing Techniques.....	147
	<i>Jianhui Zhao, Yihua Ding, and Ravindra S. Goonetilleke</i>	

PART III Footwear Design

Chapter 8	Capturing Footwear Needs for Delighting Customers.....	177
	<i>Emily Y.L. Au and Ravindra S. Goonetilleke</i>	
Chapter 9	Shoe-Last Design and Development	193
	<i>Ameersing Luximon and Yan Luximon</i>	
Chapter 10	Computer-Aided Design of Footwear	213
	<i>Ajay Joneja and Fan Sai Kit</i>	
Chapter 11	High-Heeled Shoes.....	261
	<i>Makiko Kouchi</i>	
Chapter 12	Footbed Design	279
	<i>Ravindra S. Goonetilleke and Thilina W. Weerasinghe</i>	
Chapter 13	Design of Insoles.....	291
	<i>T.M. Owings and G. Botek</i>	
Chapter 14	Design of Custom Shoe Lasts for Challenging Feet	309
	<i>Carl G. Saunders, Claudia Kieserling, and Johan Steenwyk</i>	
Chapter 15	Finite Element Analysis in Footwear Design.....	321
	<i>Philip Azariadis</i>	
Chapter 16	Footwear—The Forgotten Treatment—Clinical Role of Footwear	341
	<i>Helen Branthwaite, Nachiappan Chockalingam, and Aoife Healy</i>	

PART IV Testing

Chapter 17	Foot Pressure Measurements.....	359
	<i>Ewald M. Hennig</i>	

Chapter 18	Plantar Pressure Analysis.....	377
	<i>N.L.W. Keijsers</i>	
Chapter 19	Virtual Shoe Test Bed	409
	<i>Sandra Alemany, José Olaso, Sergio Puigcerver, and Juan Carlos González</i>	
Chapter 20	Measuring of the Motion Control Properties of Footwear: Assessment of Footwear and Foot Function Should Be Harmonized.....	437
	<i>Stephen R. Urry, Lloyd F. Reed, and William G. Gordon</i>	

PART V Footwear Effects

Chapter 21	Footwear Effects on Running Kinematics	457
	<i>Joseph Hamill, Allison H. Gruber, and Ross H. Miller</i>	
Chapter 22	Footwear Influences on Running Biomechanics.....	475
	<i>Gordon A. Valiant, Allison R. Medellin, Lorilynn Bloomer, and Sharna M. Clark-Donovan</i>	
Chapter 23	Effects of Footwear on Muscle Function	489
	<i>George S. Murley and Karl B. Landorf</i>	
Chapter 24	Postural Stability Measurement: Implications for Footwear Interventions.....	513
	<i>Anna Lucy Hatton and Keith Rome</i>	
Chapter 25	Footwear, Balance, and Falls in Older People	535
	<i>Jasmine C. Menant and Stephen R. Lord</i>	

PART VI Activity-Specific Footwear

Chapter 26	Soccer Shoe Design and Its Influence on Player's Performance	561
	<i>Ewald M. Hennig and Katharina Althoff</i>	

Chapter 27	Footwear for Preventing Acute Sport-Related Ankle Ligamentous Sprain Injury.....	577
	<i>Daniel Tik-Pui Fong, Kai-Ming Chan, and Kam-Ming Mok</i>	
Chapter 28	Kinematics Analysis of Walking with Negative-Heeled Shoes in Treadmill.....	595
	<i>Youlian Hong and Jing Xian Li</i>	
Chapter 29	Athletic Footwear Research between Industry and Academia	605
	<i>Thorsten Sterzing, Wing Kai Lam, and Jason Tak-Man Cheung</i>	
 PART VII Customization		
Chapter 30	Mass Customization and Footwear	625
	<i>Chenjie Wang and Mitchell M. Tseng</i>	
Chapter 31	Strategic Capabilities to Implement Mass Customization for Athletic Footwear: The Example of miadidas.....	643
	<i>Frank Piller, Evalotte Lindgens, and Frank Steiner</i>	
Chapter 32	selve Model: Custom Shoes in the Twenty-First Century	663
	<i>Claudia Kieserling</i>	
Chapter 33	Footwear Customization for Manufacturing Sustainability	673
	<i>C.R. Boër and P. Pedrazzoli</i>	
Index		689

Editor

Ravindra S. Goonetilleke is a professor in the Department of Industrial Engineering and Logistics Management at the Hong Kong University of Science and Technology. He has been actively involved in footwear research in the United States, Hong Kong, and China for over 20 years. He was a project manager and consultant at the Biomechanics Corporation of America and the human factors manager at the Nike Sport Research Laboratory. He set up a fully operational state-of-the-art footwear research laboratory in Wenzhou for the Zhejiang Advanced Manufacturing Institute. He has numerous patents, has worked with local and international footwear companies, and is an active researcher in the field with many publications. His primary research interests are mathematical modeling in human factors and ergonomics and the development of culture- and user-friendly products and systems.
